

## Banjolux opens a spectacular showroom in Eagle and online

Since 1997, the Banjolux store and name has been synonymous with the finest names in high quality European bathroom fixtures and tiles for many homes and commercial establishments on Aruba. After making the move from their original showroom on the Fergusonstraat to Cumina, they found again that they needed larger quarters, and finally, the much anticipated opening of their new showroom took place this past Saturday. That day, they opened not only their beautiful new quarters at Scotlandstraat 55, across from the Step by Step dance studio, but premiered a website as elegant as the new Eagle establishment.

Now shoppers looking for decorating ideas can browse through their website, [www.banjolux.com](http://www.banjolux.com) from the comfort of their homes, and then be greeted with excellent service from qualified staff at their 10,000 square foot showroom. Banjolux proves that they are keeping up with the latest technology, quality products and decorating ideas in their devotion to keeping their customers satisfied! Congratulations to the owners and managers of Banjolux on the successful opening of both of their new locations!
